Summary

Frontend-focused software developer with 5+ years of professional experience building scalable and accessible web applications using React and TypeScript, with a passion for clean code and performance. In personal projects, I enjoy exploring fullstack development using mostly Node.js, Supabase, and SQL. Looking for a remote role where I can contribute to user-centric products and grow as a developer.

Experience

Gen Digital 2023 – present
Software Developer Remote

Worked on UI tool used by non-technical stakeholders to generate dynamic screens for brands like Avast and Norton. Built reusable TypeScript template engine. Collaborated closely with design and business teams.

3Pillar Global 2020 – 2023
Fullstack Developer Ostrava, Czech Republic

Fullstack developer working on healthcare and science platforms using React, TypeScript, and Ruby on Rails. Worked in agile teams and regularly participated in code reviews and delivery demos.

Education

VSB – Technical University of Ostrava 2017 – 2022
ICT – Data Processing and Analysis Master's (Ing.)

Tampere University 2019
Information Technologies Exchange (Erasmus)

Secondary Technical School, Frýdek-Místek 2013 – 2017
Information Technologies High School Diploma

Skills
